Entered at the Seymour, Indiana, Postoffice as Second-class Matter.
FRIDAY, MAY 26 1899.

NEXT Tuesday is Memorial day and a good program has been arranged by the local Grand Army post. Business men should arrange to close their places of business from 1 o'clock at 4 o'clock that afternoon.

The Grand Army encampment at Terre Haute was one of the most successful ever held in the state. The arrangements were perfect and everybody that went speaks in highest terms of the hospitality of Terre Haute.

The democratic national committee at their St. Louis meeting denounced all trusts except the one they are promoting, that is the silver trust. The Republican party, the only party that ever enacted any federal anti-trust legislation, is against all trusts, including the 16 to 1 push.

W. L. DUNLAP, of Franklin, who was chosen Department Commander at the G. A. R. encampment at Terre Haute, is not only a representative soldier, but a representative citizen of the state. He was United States marshal for the district of Indiana under President Harrison. He will make a capable officer.

The question uppermost in the mind of the democratic steering committee is what to do about amending the Chicago platform. Some of them would like to make a new platform but that would shelve Bryan and Altgeld which would not do at all. Boss Croker would like to drop the 16 to 1 section, but the whole thing might as well be dropped, for that was the chief feature. Some of the bosses got their heads together at St. Louis last night to devise plans to get the several different species of Jeffersonian democrats together on the same platform, but they gave way to Bryan and he repeated his same old speech and they are now just where they were before they sat down to sup together.

SINCE our reference to the bids received by Vincennes for lighting that city several have inquired more particularly about the propositions made to supply the 175 arc lights asked for. The Vincennes Commercial says there were four bids, though the light committee had advertised three separate times and had paid for notices in papers in Chicago, St. Louis, New York, Cincinnati, Indianapolis and other cities. The lowest bid received for street lights was \$84 and the highest was \$100 a year. The lowest bid for commercial arc lights was \$7.50 a month or \$90 a year, and the highest bid for commercial lights was \$125. The best bids were from home people, who will doubtless be awarded the contract. They did not ask for bids on incandescent lights. These figures show as do the contracts entered into in other cities that the proposition before the Seymour city council made by Seymour people is a good one.

I H. Young has a badly inflamed and swollen hand the result of his finger being torn off last week.

Some of the best bargains are still to be sold at Harding's auction sale. Tomorrow will be your last chance to get them at your own price.

Don't forget the regular meeting of the Commercial Club tonight. There is business of importance to transact. Every member of the club be present.

Hon. L. P. McCormick, republican labor commissioner for Indiana in a recent interview in the Indianapolis Sun strongly denounces trusts. Mr. McCormick is in a position to learn fully the evils of such organizations and what he says should have much weight.

JOHN OVERMYER has written two or three confidential letters to Seymour announcing his candidacy for congress. He is beginning early in order to get his machine in thorough working order before Marion Griffith does anything but take his vacation and study geography so he will be ready for the Philippines and Cuban questions. But John would better come over in Jackson and do some work or he will have a candidate to face who has congressional aspirations the same as himself. His private letters to two or three Seymour democrats won't suffice. There are others.

Bargains still going at Harding's auction sale. Don't miss the closing sales tonight and tomorrow.

Lester, Vernon township, J. R. Tindler, Hamilton township, D. B. Vance, Brownstown township, Samuel Carr, Carr township, and Wm. Empson, Driftwood.

Unfortunate Smiles.
There are times when a lawyer regrets the use of an illustration which a moment before has appeared especially felicitous.

"The argument of my learned and brilliant brother," said the counsel for the plaintiff in a suit for damages from a street car corporation, "is like the snow now falling outside—it is scattered here, there and everywhere."
"All I can say," remarked the opposing counsel when his opportunity came, "is that I think the gentleman who likened my argument to the snow now falling outside may have neglected to observe one little point to which I flatter myself the similarity extends—it has covered all the ground in a very short time."—Youth's Companion.

Extremes.
Cham, the French caricaturist, was talking one day with a Gascon, who bragged that his father's ancient baronial dining hall was the wonder of the world. It was so high you could hardly see the roof.
"My father had a dining room," said Cham, "which was just as remarkable the other way. It was so low that the only fish we could serve at table was sole!"

Shelbyville's New Contract.

The city of Shelbyville has just entered into a new contract for electric lights by a unanimous vote of the city council. We clip the following from council proceedings as published in yesterday's Shelbyville Republican:

"Mr. Weakly, chairman of the committee on lights, made a report in which he said the committee had attempted to investigate the cost of electric lights in twenty-six cities of Indiana, but received replies from only eighteen towns and cities, the purport of the letters being that of these eighteen towns only three of them pay less than \$75 a year for arc lights while many of them pay more. The report then recommended that the city enter into a contract with the present company for a term of six years and three months at \$73 for each arc light now up and \$70 per year for each arc light ordered in the future and \$18 for the series incandescent lights. Mr. Weakly explained that this price was two dollars per light less for arc lamps now up and five dollars less for lamps that may be ordered. The proposition was also stipulated that the city building is to be lighted free. The term of the contract is made to justify with the expiration of the water contract when the city has the option of purchasing both plants. All the members voted that a contract be made with the old company as set out by Mr. Weakly.

Don't miss Harding's auction sale tonight and tomorrow. It will be the last chance at the bargains.

One of the most entertaining articles of the month is "The Century's Progress in Scientific Medicine," by Henry Smith Williams, M. D., in Harper's Magazine for June. The author describes in detail the great inventions and discoveries in medical science during the last century. Doctor Williams' article is well worth reading.

How to Pronounce Albany.

The common usage of pronouncing the name of our city as though it were spelled Albany has so long prevailed that it will probably surprise many readers to be told that the first syllable of the name is properly short and should be pronounced like the Al in Alfred and Albert. Edwin Forrest, who was an accurate orthoepist, called this city Al-bany, not Al-bany or Awlbany.—Albany Argus.

A bucket 743 miles deep and 743 miles from side to side would hold every drop of the ocean. The bucket could rest quite firmly on the British Isles. To fill the bucket one would need to work 10,000 steam pumps, each sucking up 1,000 tons of sea.

Mexico has an area of 751,000 square miles or nearly one-fourth that of the United States.

A Letter to Mrs. Pinkham Brought Health to Mrs. Archambo.

[LETTER TO MRS. PINKHAM NO. 42,393]
"DEAR MRS. PINKHAM—For two years I felt tired and so weak and dizzy that some days I could hardly go around the house. Backache and headache all the time and my food would not digest and had such pains in the womb and troubled with leucorrhea and kidneys were affected.
"After birth of each child I grew weaker, and hearing so much of the good you had done, I wrote to you and have taken six bottles of Lydia E. Pinkham's Vegetable Compound, one box of Lozenges, one box of Liver Pills, one package of Sanative Wash, and today I am feeling as well as I ever did. When I get up in the morning I feel as fresh as a daisy and a girl and eat and sleep well and do all of my work. If ever I feel weak again shall know where to get my strength. I know your medicine cured me."—MRS. SALINA ARCHAMBO, CHARLEMONT, MASS.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year. All women who suffer are invited to write to Mrs. Pinkham at Lynn, Mass., for advice, which will be promptly given without charge.

L'ENVOI.

The smoke upon your altar dies,
The flowers decay,
The goddess of your sacrifice
Has flown away.
What profit, then, to sing or pray
The sacrifice from day to day?
"We know the shrine is void," they said,
"The goddess flown—
Yet wreaths are on the altar laid—
The altar stone
Is black with ashes of sacrifice,
Albeit she had led our eyes."
"For it may be, if still we sing
And tend the shrine,
Some deity on wandering wing
May there incline,
And finding all in order meet
Stay while we worship at her feet."
—Rudyard Kipling.

For over a year The Ledger has been stealing from its exchanges without a qualm of conscience. Notice is hereby given that our better nature has asserted itself, and everything will be credited hereafter. Tell you why. Saw an item in a western exchange stating that a woman was composed of 480 muscles, 320 bones and 250 pins. Copied it as original. Woman read it. Called us a liar. Had concealed on her person 560 pins. Hereafter items will be credited, and the blame of false statements will fall where it belongs.—Roscoe (Pa.) Ledger.

AN ENTIRE NEW SKIN

Successful Case of Grafting
on a 10-Year-Old Boy at
Columbia City.

VIOLATIONS OF FISH LAW

Romantic Marriage of a Former In-
diana Preacher at San Francisco.
Election of G. A. R. Departmental
Officers at Terre Haute Encamp-
ment—Other Indiana Happenings.

Columbia City, Ind., May 26.—About
one year ago Ernest Monroe, a 10-year-
old boy of this city, was burned over
his entire body by an explosion of kero-
sene. His case was pronounced hope-
less, but later, as a last resort, it was
deemed advisable to perform the deli-
cate operation of skin grafting.

Several hundred pieces of skin from
the arms of his parents and friends who
volunteered to contribute were trans-
ferred to his person, but as only part
grew the operation was repeated with
an entirely successful result. He now
has an entirely new skin.

G. A. R.

Election of Officers at Terre Haute.
Admiral Brown Recognized.

Terre Haute, Ind., May 26.—Five
hundred and twenty-two delegates re-
sponded in the G. A. R. meeting yester-
day when a vote was taken on de-
partment commander.

W. L. Dunlap of Franklin received
332 votes and B. B. Campbell of Ander-
son 190. Comrade Dunlap was declared
elected. Morton C. Rankin of this city
was elected senior vice commander, So-
lomon A. Pennington of Kokomo, ju-
nior vice commander; Dr. Charles M.
Gravis of Martinsville, medical director,
and C. W. Stewart of Danville, chap-
lain. Admiral George Brown was elected
by acclamation, delegate-at-large to
the national encampment, with Colonel
W. E. McLean of this city as alternate.

HORSE THIEVES.

Gang Operating in Miami and Elk-
hart Counties Run Down.

Elkhart, Ind., May 26.—Amer Baum-
gartner, a farmer living near Bremen,
has been arrested here by Deputy Sher-
iff Chattelette, charged with horse
stealing. He has confessed that he is at
the head of a gang of horse thieves,
working systematically between Miami
and Elkhart counties, and had person-
ally stolen five horses, one owned by
Louis McClure of New Paris, and an-
other by James Shields of Milford. Joe
Brown, a well known character, who
was implicated, has been arrested in an
Illinois town. Baumgartner, when ar-
rested had two horses and a buggy
which he admits having stolen in Mi-
ami county.

JACK, THE GRABBER.

Mysterious Individual Frightening
the Women of Greensburg.

Greensburg, Ind., May 26.—For some
time the people of this city have been
angered by the actions of a man who has
come to be known as "Jack, the Grab-
ber." He has been in the habit of hid-
ing behind trees and in alleys after dark,
and when some lone woman comes
along, jumping out and catching her.
Several women have been badly fright-
ened in this way. It is also reported
that on several occasions after night this
strange person has been seen peeping
through windows. The authorities have
thus far been unable to arrest him.

Once Abandoned In Bass.

Hagerstown, Ind., May 26.—The fish
and game law is violated openly in Mar-
tindale's creek, and the depredators are
thought to live in Richmond. They
have seized the stream for miles, and
they also overrun the fields and frighten
the livestock belonging to farmers by the
firing of guns and the barking of
dogs on the Sabbath. The creek for-
merly abounded in bass, and was a fine
fishing resort, but all this is changed
now.

Pensions Granted.

Washington, May 26.—Pensions have
been granted to Indians as follows:
Original—Joseph Crawl, Coal City, \$3;
John Harrison, Newport, \$3; Abraham
L. Shirley, Indianapolis, \$6; Addition-
al—Christopher Youkin, National Mil-
itary Home, Grant, \$5 to \$8; John Groo-
beck, Mount Pleasant, \$5 to \$8; Original
Widows, Etc.—Special, May 10, Harriet
Hammond, Evansville, \$8; Mary Mc-
Vey, Noblesville, \$8.

Bad Crop Outlook.

Danville, Ind., May 26.—The outlook
for wheat in Hendricks county is worse
than known for years. Fields which
two weeks ago promised enormous yields
have been almost ruined by the fly, but
the extremely large acreage may, in a
measure, increase the crop. Corn has a
sickly, yellow color, and has grown but
little in the past 10 days.

Traveling Men's Duel.

Eckerty, Ind., May 26.—Chris Lego
and James Cheving, traveling men, en-
gaged in a fight here during which each
fired five shots. Then they clinched.
Lego lost part of his nose and a portion
of his ear.

Captain James H. Smith.

Madison, Ind., May 26.—Captain
James H. Smith, 80 years old, ex-sur-
veyor of Jefferson county, perished
while trying to rescue a favorite horse
from a burning barn.

Supreme Lodge A. O. U. W.

No Right to Ugliness.

The woman who is lovely in face, form
and temper will always have friends, but
one who would be attractive must keep
her health. If she is weak, sickly and
all run down, she will be nervous and ir-
ritable. If she has constipation or kidney
trouble, her impure blood will cause
pimples, blotches, skin eruptions and
wretched complexion. Electric Bitters
is the best medicine in the world to re-
gulate stomach, liver and kidneys and
to purify the blood. It gives strong nerves
bright eyes, smooth, velvety skin, rich
complexion. It will make a good look-
ing, charming woman of a run-down in-
valid. Only 50 cents at W. F. Peter's
drug store.

Henry Eckler's new house on Mill

Growing Wheat in the Southwest.

Governor Mount states that the
growing wheat in the southwest
part of Indiana is in splendid condition
and presents a marked contrast to the
appearance of the wheat fields of
northern Indiana. He says he never
saw more promising wheat fields than
those of southern Indiana. Snow pre-
dicted them during the severe cold
weather when the wheat was so badly
damaged in the northern part of the
state.

Notaries Unknown.

Albert McLaughlin was down in
Floyd county, a few miles north of New
Albany, several days since and had
occasion to use a notary public. He in-
quired at a farm house and was directed
to the cross road's general store. He
entered the store and found no one in
but a Hoover bellie about seventeen
years of age. "Your father owns this
store I believe," remarked Mr. Mc-
Laughlin. "Yes sir," was the girl's re-
ply. "Is he a justice of the peace?"
"A—what?" replied the girl. "A jus-
tice of the peace or a notary public?"
again asked Mr. McLaughlin. "No,
pap's a democrat, but brother George
he's a republican."—Columbus Republi-

The Time Comes for Indiana People
to Tell What Has Been Done
for Them.

The time has come when people in
Indiana feel the change. Many peo-

Kidneoids will cure a lame back,
kidney backache, urinary and kidney
disorders, sleeplessness and nervous-
ness. We always like to give refer-
ences as to the merits of Morrow's
Kidneoids, and this time refer you to
E. H. Waldo, chief clerk in the re-
sight Dept. of the Big Four, Ander-
son, Ind., who says: "I have been
troubled with backache in the region
of the kidneys and have had primary
disturbances for several years. Every
indication was kidney trouble. Learn-
ing of the many cures effected by
Kidneoids, I resolved to try them
and secured some from which I re-
ceived relief in three days. There is
no gainsaying your claims for I am
convinced that Kidneoids are A No. 1
and I recommend their use."

I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. TOUR OF INSPECTION

General Leonard Wood Reports on the Condition of Santiago Province.

PRIVILEGES OF THE PRESS

Curtailed by the Military Governor Because of Incendiary Editorial. McKinley Called "a Miserable Conspirator"—Two Spaniards and Mexican Desecrated the Shrine.

Washington, May 26.—The war department last night received the following message from General Leonard Wood, in command of the province of Santiago: "Just returned from inspection of principal interior towns on north coast this department. People at work; no hunger; no application for personal assistance during the trip; people absolutely quiet; no Cuban troops under arms anywhere in province; no brigandage."

WOOD'S TOUR

Everything Quiet in the Department of Santiago.

Santiago de Cuba, May 26.—Major General Leonard Wood, military governor of the department of Santiago, returned yesterday from a 10-days' tour, during which he has visited the principal towns of the province. Anticipating some trouble at Gibara, he had given orders for the United States troops to be ready for immediate service, but he found everything quiet there and everywhere else. Brigandage has been abolished; no demands for rations were made upon him; on all sides he found evidences of prosperity and a general desire for schools and other American institutions.

In consequence of the frequency of incendiary editorials criticizing the American administration, General Wood yesterday issued an order somewhat curtailing the privileges of the press in the department. El Porvenir had referred to President McKinley as "a Miserable Conspirator." A repetition of this offence will mean suppression for the paper and jail for the editor.

Two Spaniards and a Mexican have been arrested on a charge of being the perpetrators of the recent outrage at El Cobre, when the famous shrine of Nuestra Señora Caridad was robbed of jewels valued at \$25,000 and otherwise mutilated. Francisco Gutierrez, a Spaniard, chief of the secret police, made the arrests and secured the jewels and the head of the statue of the saint that was broken off and removed. At the time the outrage was committed it was reported that an American would be charged with it. Next Sunday special service will be held at El Cobre to celebrate the recovery.

SOLDIERS AT MANILA

To Have a Chance to Compare Australian and American Beef.

Washington, May 26.—The war department gave open expression to the satisfaction with which it receives the statements of Major General MacArthur contained in his report just made public, so far as they relate to the food supply of the American troops in the Philippines.

Special instructions have been given to General Otis to cause a careful inquiry to be made by a competent board of experts into the sufficiency of the present army ration for the wants of the Americans in the Philippines, it being realized that the climatic conditions there might warrant considerable change in the established food supplies. But meanwhile Major MacArthur states that the army is abundantly supplied with the best of Australian beef and the

Poor, helpless, hopeless, sick, suffering, miserable woman. Sick because she doesn't know any better. Sick because she doesn't really know why. Sick because the organs that make her a woman are not properly performing their functions and so are sending nerve messages with aches and pains and distress all over her quivering body.

Nine-tenths of women's sickness comes from disorders of these special organs. The symptoms are various—the cause the same. Headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women may nearly always be traced directly to feminine weakness or disease. When the most important organism of a woman's body is disordered her whole physical and mental system is upset. The only way to find comfort is to cure the real cause of the misery. Local doctors in general practice are frequently so hurried and rushed that they give a woman medicine not the disease. They give a woman medicine for the wrong disease. Thousands of women, after years of discouragement, have written to Dr. R. V. Pierce, of Buffalo, N. Y., and now thank him for their recovery of health and happiness. For over thirty years Dr. Pierce has been chief consulting physician at the Invalids' Hotel and Surgical Institute. It was over thirty years ago that he began to use his "Favorable Prescription" in his practice.

It is a medicine devised to cure one certain kind of diseases—female diseases. It brings ease and comfort and sleep. It re-bolters, brightens the eyes, puts vim and snap into the whole being. It is sold by most dealers in medicine. Don't take anything else. Nothing else is "the same." Nothing else is "as good." Get what you ask for. Patronize honest dealers.

choicest of American vegetables in good quantity.

The Glazier, which sailed from Fort Monroe yesterday for Gibraltar, is making an experiment in food supply that is being watched with interest. She carries 1,000,000 pounds of fresh beef in her refrigerators for the sailors and troops at Manila, and if this can be kept in good condition for the 60 days required for the passage there will be an opportunity to make a comparison between the American beef and the Australian beef, with which the Americans have so far been supplied.

THREE LYNCHED

Father and Two Sons, Suspected of Aiding a Criminal to Escape.

Houston, May 26.—Three white men, James Humphreys and his two sons, were lynched Wednesday night near the village of Ale, in Henderson county, a remote neighborhood devoid of telegraph, telephone or railway connections and about 75 miles southwest of Dallas. The Humphreys were farmers. Several months ago Constable Melton of the Ale precinct was murdered by a man who had committed a crime, and whom he was attempting to arrest. The people searched the country thoroughly, but failed to apprehend the murderer. The Humphreys were known to have been on friendly terms with the fugitive and were suspected of having aided him to escape.

Short Special Session.

Albany, May 26.—The state legislature, which met in special session last Monday night, adjourned sine die late yesterday afternoon after having passed the amended franchise tax bill and a bill appropriating \$75,000 for the expense of celebrating Admiral Dewey's return. It is expected that Governor Roosevelt will sign the franchise tax bill today.

FAVORS ANNEXATION

Ex-Governor Evans Gives His Views on Conditions in Cuba.

Washington, May 26.—Ex-Governor John Gary Evans of South Carolina, who, as a member of General Ludlow's staff at one time had charge of the city of Havana, called at the white house yesterday. He returned from Cuba about three weeks ago. His accounts of Cuban conditions are most interesting. He is a firm believer in annexation. In expressing his views he said: "If you could have seen the army that marched into Havana behind Gomez you would have acknowledged the impossibility of decent self-government on that island. Of all the heterogeneous assemblages ever gathered this was the worst. Coxey's army was a company of aristocratic gentlemen by comparison. All this talk about the patriotism of the Cuban army is a myth. They were largely actuated by desire for plunder and for office."

They now want to rule the island, because they see their chances of looting the treasury will not be good so long as it remains under American control. To turn the islands over to the Cubans would be a worse crime against civilization than to have allowed the Spanish to rule it. There would be a revolution every two months. There is such a terrible mixture of population, with no pride of birth, and no training in decent and orderly civil government, that little could be hoped from native rule. The intelligent property owning classes are unanimous for annexation. They see no other way out of it. Under proper government this would be one of the most prosperous islands in the world. It is green all the year round, rich in forests and minerals."

DEMOCRATS CONFER

No Action Taken at St. Louis Regarding Party Policy.

St. Louis, May 26.—When the conference of members of the Democratic national committee adjourned last evening it had taken no action regarding the policy of the party in the coming presidential campaign, and plans for the meeting from first to last was one of discussion regarding methods of work of next year, and the ways and means by which this work could best be accomplished. All members were urged to see that the organization of the party in their respective states is perfected as soon as possible, and all preparations be made for the fight. The matters of "antitrust," "anti-imperialism" and silver were not touched upon. No action was taken regarding them and no recommendations were made. The next meeting of the conference will probably be held in Chicago, July 20, and Chairman Jones of the national committee has been asked to call a formal meeting for that date. It is expected that at this meeting definite action will be taken and the question of what is to be the rallying cry of the Democracy in the fall of 1899 will be determined.

Y. M. C. A.

Grand Rapids, May 26.—The 33rd biennial Y. M. C. A. international convention was opened yesterday afternoon with over 500 delegates present. The session was devoted to the usual organization features and the presentation of reports followed by a "Quiet hour," devotional exercises, led by Rev. William A. Guerry of Sewanee, Tenn., chaplain of the University of the South. At the evening session the number of delegates was increased to 700 and the Auditorium was crowded to the doors by enthusiastic spectators.

The programme was devoted mainly to the work of the associations in the army and navy during the past year, with Rear Admiral John W. Philip presiding. He was introduced as the man who commanded the battleship Texas—sister ship of the ill-fated Maine—last summer, and was received with long continued cheers and applause.

PEACE CONFERENCE

Committee on Laws of Warfare Consider Red Cross Matters.

NO CONCLUSION REACHED

Owing to Opposition Developing Which Contended That the Conference Under Its Rules Was Incompetent to Consider the Matter. Women's Memorial Album.

The Hague, May 26.—Both sections of the committee on the laws of warfare of the peace conference met separately yesterday and began the examination of the subject submitted to them by the Red Cross section. Both sections met subsequently and discussed the question of competence as regards the scheme for the revision of the Geneva convention, known as the Morgner scheme.

The Morgner scheme comprises modifications of the Geneva convention in connection with the wounded and sick prisoners, members of the military hospital service, convoys for the wounded, ambulances, hospitals, property belonging to neutralized persons, religious and medical staffs and kindred subjects. The scheme applies equally to land and sea warfare.

It was proposed to submit the scheme to another committee for revision and the question was then raised whether the conference was competent to deal with the matter. Those who took a negative view argued that the conference had decided in principle and all the governments represented had agreed that nothing should be submitted to the conference beyond the eight points in the circular of Count Muraviev. They contended that if the conference once infringed this rule, a precedent would be created leading to numerous difficulties, including probably the springing of the Armenian, Macedonian and similar questions upon the conference.

It was also pointed out by the opponents of the proposal to refer that, in as much as the Morgner scheme dealt mostly with the wounded and with hospitals, it would be impossible to discuss the proposed modifications effectively without the co-operation of doctors, who alone would be capable of deciding many of the points in issue. No decision was reached.

There is no truth in the statement that a proposal has been submitted to the conference to abrogate the provisions of the declaration of Paris, 1864, regarding the protection of private property in time of war.

Madame Selenka, the famous peace advocate and promoter of the woman's peace crusade, yesterday presented to M. De Staal, president of the conference and head of the Russian delegation, an illustrated album containing the text of resolutions in favor of peace adopted by meetings representing several million women. The album was accompanied by an address, "in the name of the women of 18 nations," setting forth the conference, assuring the delegates of the faith of the memorialists in the results of its labors.

SERIOUS DIFFERENCES

Of Opinion Between United States Delegates and Other Powers.

London, May 26.—The correspondent of The Daily Telegraph at The Hague says: "Serious differences of opinion have been manifested between the United States' representatives and those of certain powers on the subject of discussion, the seizure of private property at sea. The Americans insist upon the discussion, agreeing to abide by the voice of a majority in the decision, but they will not have the matter ruled out of court. They say: 'We, a sovereign power, came here to discuss matters not in Count Muraviev's circular, but in that of the Dutch minister of foreign affairs, M. de Beaufort. We were not invited by Russia, but by the Dutch. M. de Beaufort's circular asks us to deliberate upon the points mentioned in Muraviev's circular and also upon certain other issues, of which this is one. Therefore we must thresh it out.'"

As to Arbitration.

Berlin, May 26.—The Berliner Neueste Nachrichten, in an editorial denying that Germany is opposing the idea of an arbitration tribunal at the peace conference, suggests that the attitude of Great Britain and the United States in recent years, as shown by the Venezuelan and Alaskan disputes, has not been favorable to arbitration, although, as the paper says, "they are now posing as its special champions."

DR. M'GIFERT

General Assembly Refers His Case to the New York Presbytery.

Minneapolis, May 26.—In the hands of the Presbytery of New York is the fate of Rev. Dr. Arthur C. McGiffert, professor of church history in Union Theological seminary, New York. The general assembly of the Presbyterian church steered clear, as it hopes, of the rocks of another heresy trial when it voted yesterday afternoon, after a fierce, earnest, tumultuous and sometimes personal debate, to refer the whole matter to the Presbytery of New York "for such disposition as in its judgment the peace of church and the purity of the doctrine may require."

Virginia County Elections.

Richmond, May 26.—Elections for county officers were held in all the counties in Virginia yesterday, and some of the towns and cities also voted for one or more municipal officers. The vote as a rule was very light. Democrats were generally successful.

ROMANTIC MARRIAGE.

Rev. H. Thompson and Bride Had Not Met For Twenty-Seven Years.

San Francisco, May 26.—A marriage solemnized yesterday in the local Presbyterian church possessed romantic features of unusual interest. The contracting parties, Rev. H. Thompson, pastor of the Presbyterian church at Grant's Pass, Ore., and Mrs. Laura Naylor, for the past 15 years a mission-ary in Japan, have not met for 27 years. Prior to that time Mrs. Naylor was a member of Dr. Thompson's church in an Indian town and a friend of his former wife. Five years ago Mrs. Thompson died, and Dr. Thompson, continuing the correspondence which had been maintained by his wife with Mrs. Naylor, proposed to her by letter, was accepted and the bride arrived here from Japan Wednesday evening.

DISBANDED

Cubans Keep Their Arms and Decline to Accept American Money.

Havana, May 26.—Major General Fitzhugh Lee, military governor of the Havana-Del Rio department, wired Governor General Brooke at El Vedado that 200 Cubans of the command of General Rodriguez, near Mariano, had dispersed after resolving not to take the \$75 per man. Some of them sold their arms and others took them to their homes.

Telegrams from different points say that the Cuban army in the western provinces will adopt the idea of the troops in the Orient, declining to give up arms or to accept American money. According to these reports, the government employees will contribute a percentage of their salaries in order to give the soldiers an amount equal to that offered by the United States.

La Discussion, in an editorial statement of the present conditions, says the danger of maintaining an armed force is patent and it appeals to the men to disband peacefully, but it passionately enumerates the reasons which it conceives to exist against forcing surrender of the arms, and closes the editorial with the following statement: "By adopting force the United States would commit an injustice. Let the chiefs arrange the matter as they believe would be best. Then within 15 days there will not be a single regiment under arms; the Americans will have confidence in the Cuban and Cubans can depend upon the fulfillment of the promises made by the Americans, who really desire to see Cuba independent."

REINA MERCEDES

Norfolk Board of Health Protest Against Her Being Dismissed.

Norfolk, Va., May 26.—While all preparations are being made for maritime demonstrations in honor of the arrival of the ex-Spanish cruiser Reina Mercedes at the Norfolk navyyard, the board of health of the city adopted resolutions yesterday protesting against her being dismissed here. This protest was formally filed with Dr. F. S. Hope, state quarantine officer. Dr. Hope believes with Surgeon General Wyman and Dr. Pettus, that there is no danger. The board of health does not seriously object to the Mercedes being brought to this yard, but protests against her being repaired here until after the first frost. Notwithstanding their objections, the cruiser will come up tomorrow morning escorted by hundreds of tugs and other craft.

Arrival Confirmed.

IN SEARCH OF ANDREE

Professor Nathorst Sails From Copenhagen—Scientific Men Go Along. Copenhagen, May 26.—The expedition under Professor A. G. Nathorst, which is to search along the northeast coast of Greenland for Professor Andree, the missing arctic explorer, sailed yesterday from Helsingborg, Sweden.

Professor Nathorst's relief party sailed on the steam whaler Antares, of which he is part owner. A wealthy Norwegian merchant named Hammes will defray almost the entire cost of the expedition. After carefully examining the region between the 78d and 75th degrees, north

PROFESSOR ANDREE. [The Missing Aeronaut-Explorer.]

latitude, Professor Nathorst will proceed toward Cape Bismarck, on the east coast of Greenland, in the hope of meeting Captain Otto Sverdrup's expedition, which left Christiania last June on the Fram.

His theory is that Andree, if alive, is probably on the northeastern coast of Greenland. He argues that if the missing arctic lander in Greenland and took the east coast route to the south, several years must elapse before he could work his way, without a ship, to the nearest settlement.

The relief party consists of six scientists besides Dr. Nathorst, and a crew of 13. The plan is to head for Jan-Mayen, an island in the Arctic ocean, and then to follow the ice edge until an opening is found through which the shore can be reached.

LYNCHING

A Horrible Failure as a Preventative of Rape in the South.

Greensboro, N. C., May 26.—Colonel Julian S. Carr, in his address before the Colorado Agricultural and Mechanical college here, declared that lynchings as a preventative of rape had proved a horrible failure. While no death was too terrible for the assailant of an innocent woman, for the honor of the south lynchings should be stamped out and the law permitted to take its course.

Turning then from the responsibilities of the white race to those of the black, Colonel Carr said:

"The question of the future of the southern negro is one that must be deferred for settlement until we have restored safety and a feeling of security to the humblest woman in the poorest cabin in the most thinly settled portion of the south. The southern man cannot restore that security. That is the mission of the leaders of the negro race. They must make a public sentiment so strong in their race that no brute can fall to be impressed and deterred by it. Criminals must be made to understand that crime shuts the doors of respectable homes to the criminal. Let him be a Pariah, an Ishmaelite, an outcast to be received nowhere except by charity and upon probation."

MURDER MYSTERY

Entire Family of Strangers Killed in a Tent at Joplin, Mo.

Joplin, Mo., May 26.—The discovery of the mysterious murder of a woman and three children and the supposed suicide of husband and father was made late yesterday. The family have occupied a tent in the northeast part of town for some time. An infant child was found outside the tent with its head severed from its body; a girl of 7, a boy of 9 and their mother were found inside with their heads crushed in by a hammer. The husband, J. E. Moss, was found dead with a revolver in his hand and a bullet hole in his head. The murders are shrouded in mystery.

Man With Money Missing.

New York, May 26.—George Forskey, a Syrian who had a money changing establishment and bank on Washington street, disappeared yesterday. Forskey had money on deposit to an amount estimated from \$30,000 to \$50,000. No trace of him has been found.

President Dwight's Successor.

New Haven, Conn., May 26.—It was officially announced last evening that Professor Arthur Twining Hadley had been elected to succeed Timothy Dwight as president of Yale University.

Colquitt Gets Twenty Years.

Athens, Ga., May 26.—Charles Colquitt, a negro, who attempted to ravish Eugenia Dooley, white, last Sunday night at High Shoals, has been sentenced to 20 years' imprisonment.

FRIDAY, MAY 26 1899

NEXT Tuesday is Memorial day and a good program has been arranged by the local Grand Army post. Business men should arrange to close their places of business from 1 o'clock at 4 o'clock that afternoon.

The Grand Army encampment at Terre Haute was one of the most successful ever held in the state. The arrangements were perfect and everybody that went speaks in highest terms of the hospitality of Terre Haute.

The democratic national committee at their St. Louis meeting denounced all trusts except the one they are promoting, that is the silver trust. The Republican party, the only party that ever enacted any federal anti-trust legislation, is against all trusts, including the 16 to 1 push.

W. L. DUNLAP, of Franklin, who was chosen Department Commander at the G. A. R. encampment at Terre Haute, is not only a representative soldier, but a representative citizen of the state. He was United States marshal for the district of Indiana under President Harrison. He will make a capable officer.

The question uppermost in the mind of the democratic steering committee is what to do about amending the Chicago platform. Some of them would like to make a new platform but that would shelve Bryan and Altgeld which would not do at all. Boss Croker would like to drop the 16 to 1 section, but the whole thing might as well be dropped, for that was the chief feature. Some of the bosses got their heads together at St. Louis last night to devise plans to get the several different species of Jeffersonian democrats together on the same platform, but they gave way to Bryan and he repeated his same old speech and they are now just where they were before they sat down to sup together.

SINCE our reference to the bids received by Vincennes for lighting that city several have inquired more particularly about the propositions made to supply the 175 arc lights asked for. The Vincennes Commercial says there were four bids, though the light committee had advertised three separate times and had paid for notices in papers in Chicago, St. Louis, New York, Cincinnati, Indianapolis and other cities. The lowest bid received for street lights was \$84 and the highest was \$100 a year. The lowest bid for commercial arc lights was \$7.50 a month or \$90 a year, and the highest bid for commercial lights was \$125. The best bids were from home people, who will doubtless be awarded the contract. They did not ask for bids on incandescent lights. These figures show as do the contracts entered into in other cities that the proposition before the Seymour city council made by Seymour people is a good one.

Don't forget the regular meeting of the Commercial Club tonight. There is business of importance to transact, every member of the club be present.

Hos. L. P. McCormick, republican labor commissioner for Indiana in a recent interview in the Indianapolis Sun strongly denounces trusts. Mr. McCormick is in a position to learn fully the evils of such organizations and what he says should have much weight.

JOHN OVERMYER has written two or three confidential letters to Seymour announcing his candidacy for congress. He is beginning early in order to get his machine in thorough working order before Marion Griffith does anything but take his vacation and study geography so he will be ready for the Philippines and Cuban questions. But John would better come over in Jackson and do some work or he will have a candidate to face who has congressional aspirations the same as himself. His private letters to two or three Seymour democrats won't suffice. There are others.

Bargains still going at Harding's auction sale. Don't miss the closing sales tonight and tomorrow.

There are times when a lawyer regrets the use of an illustration which a moment before has appeared especially felicitous.

"The argument of my learned and brilliant brother," said the counsel for the plaintiff in a suit for damages from a street car corporation, "is like the snow now falling outside—it is scattered here, there and everywhere."

"All I can say," remarked the opposing counsel when his opportunity came, "is that I think the gentleman who likened my argument to the snow now falling outside may have neglected to observe one little point to which I flatter myself the similarity extends—it has covered all the ground in a very short time."—Youth's Companion.

Extremes.
Cham, the French caricaturist, was talking one day with a Gascon, who bragged that his father's ancient baronial dining hall was the wonder of the world. It was so high you could hardly see the roof.

"My father had a dining room," said Cham, "which was just as remarkable the other way. It was so low that the only fish we could serve at table was sole!"

Shelbyville's New Contract.

The city of Shelbyville has just entered into a new contract for electric lights by a unanimous vote of the city council. We clip the following from council proceedings as published in yesterday's Shelbyville Republican:

"Mr. Weakly, chairman of the committee on lights, made a report in which he said the committee had attempted to investigate the cost of electric lights in twenty-six cities of Indiana, but received replies from only eighteen towns and cities, the purport of the letters being that of these eighteen towns only three of them pay less than \$75 a year for arc lights while many of them pay more. The report then recommended that the city enter into a contract with the present company for a term of six years and three months at \$73 for each arc light now up and \$70 per year for each arc light ordered in the future and \$18 for the series incandescent lights. Mr. Weakly explained that this price was two dollars per light less for arc lamps now up and five dollars less for lamps that may be ordered. The proposition was also stipulated that the city building is to be lighted free. The term of the contract is made to justify with the expiration of the water contract when the city has the option of purchasing both plants. All the members voted that a contract be made with the old company as set out by Mr. Weakly.

Don't miss Harding's auction sale tonight and tomorrow. It will be the last chance at the bargains.

One of the most entertaining articles of the month is "The Century's Progress in Scientific Medicine," by Henry Smith Williams, M. D., in Harper's Magazine for June. The author describes in detail the great inventions and discoveries in medical science during the last century. Doctor Williams' article is well worth reading.

A Letter to Mrs. Pinkham Brought Health to Mrs. Archambo.

[LETTER TO MRS. PINKHAM NO. 44,395]

"DEAR MRS. PINKHAM—For two years I felt tired and so weak and dizzy that some days I could hardly go around the house. Backache and headache all the time and my food would not digest and had such pains in the womb and troubled with leucorrhoea and kidneys were affected.

"After birth of each child I grew weaker, and hearing so much of the good you had done, I wrote to you and have taken six bottles of Lydia E. Pinkham's Vegetable Compound, one box of Lozenges, one box of Liver Pills, one package of Sanative Wash, and today I am feeling as well as I ever did. When I get up in the morning I feel as fresh as I did when a girl and eat and sleep well and do all of my work. If ever I feel weak again shall know where to get my strength. I know your medicine cured me."—MRS. SALINA ARCHAMBO, CHARLEMONT, MASS.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year. All women who suffer are invited to write to Mrs. Pinkham at Lynn, Mass., for advice, which will be promptly given without charge.

L'ENVOI.

The smoke upon your altar dies,
The flowers decay,
The goddess of your sacrifice
Has flown away.
What profit, then, to sing or slay
The sacrifice from day to day?

"We know the shrine is void," they said.
The goddess flown—
Yet wreaths are on the altar laid—
The altar cold—
Is black with times of sacrifice,
Albeit she had led our eyes.
"For it may be, if still we sing
And tend the shrine,
Some deity on wandering wing
May there incline,
And finding all in order meet
Stay while we worship at her feet."
—Rudyard Kipling.

For over a year The Ledger has been stealing from its exchanges without a qualm of conscience. Notice is hereby given that our better nature has asserted itself, and everything will be credited hereafter. Tell you why. Saw an item in a western exchange stating that a woman was composed of 480 muscles, 820 bones and 250 pins. Copied it as a liar. Had concealed on her person 360 pins. Hereafter items will be credited, and the blame of false statements will fall where it belongs.—Roscoe (Pa.) Ledger.

How to Pronounce Albany.
The common usage of pronouncing the name of our city as though it were spelled Albany has so long prevailed that it will probably surprise many readers to be told that the first syllable of the name is properly short and should be pronounced like the Al in Alfred and Albert. Edwin Forrest, who was an accurate orthoepist, called this city Al-bany, not Al-bany or Awlbany.—Albany Argus.

A bucket 743 miles deep and 743 miles from side to side would hold every drop of the ocean. The bucket could rest quite firmly on the British isles. To fill the bucket one would need to work 10,000 steam pumps, each sucking up 1,000 tons of sea.

Mexico has an area of 751,000 square miles or nearly one-fourth that of the United States.

AN ENTIRE NEW SKIN—ABSOLUTE SECURITY.

Successful Case of Grafting
on a 10-Year-Old Boy at
Columbia City.

VIOLATIONS OF FISH LAW

Romantic Marriage of a Former In-
diana Preacher at San Francisco.
Election of G. A. R. Departmental
Officers at Terre Haute Encamp-
ment—Other Indiana Happenings.

Columbia City, Ind., May 26.—About
one year ago Ernest Monroe, a 10-year-
old boy of this city, was burned over
his entire body by an explosion of kero-
sene. His case was pronounced hope-
less, but later, as a last resort, it was
deemed advisable to perform the deli-
cate operation of skin grafting.

Several hundred pieces of skin from
the arms of his parents and friends who
volunteered to contribute were trans-
ferred to his person, but as only part
grew the operation was repeated with
an entirely successful result. He now
has an entirely new skin.

G. A. R.

lain. Admiral George Brown was elected

HORSE THIEVES.

Gang Operating in Miami and Elk-
hart Counties Run Down.

Elkhart, Ind., May 26.—Amer Baum-
gartner, a farmer living near Bremen,
has been arrested here by Deputy Sher-
iff Chatterlain, charged with horse
stealing. He has confessed that he is at
the head of a gang of horse thieves,
working systematically between Miami
and Elkhart counties, and had person-
ally stolen five horses, one owned by
Louis McClure of New Paris, and an-
other by James Shields of Milford. Joe
Brown, a well known character, who
was implicated, has been arrested in an
Illinois town. Baumgartner, when ar-
rested had two horses and a buggy
which he admits having stolen in Mi-
ami county.

JACK, THE GRABBER.

Mysterious Individual Frightening
the Women of Greensburg.

Greensburg, Ind., May 26.—For some
time the people of this city have been
angered by the actions of a man who has
come to be known as "Jack, the Grab-
ber." He has been in the habit of hid-
ing behind trees and in alleys after dark,
and when some lone woman comes al-
ong, jumping out and catching her. Several
women have been badly frightened
on this way. It is also reported that
on several occasions after night this
strange person has been seen peeping
through windows. The authorities have
thus far been unable to arrest him.

Once Abounded In Bass.

Hagerstown, Ind., May 26.—The fish
and game law is violated openly in Mar-
tinsville creek, and the depredators are
thought to live in Richmond. They have
sailed the stream for miles, and they
have overrun the fields and frighten
the livestock belonging to farmers by the
firing of guns and the barking of
dogs on the Sabbath. The creek for-
merly abounded in bass, and was a fine
fishing resort, but all this is changed
now.

Bad Crop Outlook.

Danville, Ind., May 26.—The outlook
for wheat in Hendricks county is worse
than known for years. Fields which
two weeks ago promised enormous yields
have been almost ruined by the fly, but
the extremely large acreage may, in a
measure, increase the crop. Corn has a
sickly, yellow color, and has grown but
little in the past 10 days.

Traveling Men's Duel.

have felt after using Morrow's Kid ne-
oids.

Kid neoids will cure a lame back,
kidney backache, urinary and kidney
disorders, sleeplessness and nervous-
ness. We always like to give refer-
ences as to the merits of Morrow's
Kid neoids, and this time refer you to
E. H. Waldo, chief clerk in the
right Dept. of the Big Four, Ander-
son, Ind., who says: "I have been
troubled with backache in the region
of the kidneys and have had primary
disturbances for several years. Every
indication was kindly cured. Learn-
ing of the many cures effected by
Kid neoids, I resolved to try them
and secured some from which I re-
ceived relief in three days. There is
no gainsaying your claims for I am
convinced that Kid neoids are a No. 1
and I recommend their use."

Morrow's Kid neoids are not pills
but Yellow Tablets which is the sci-
entific form of preparing medicine, they
are put up in wooden boxes which
contain enough for about two weeks'
treatment and sell at fifty cents a box
at all druggists and Alpha Cox's drug
store.

Mailed on receipt of price. Manu-
factured by John Morrow & Co., Chem-
ists, Springfield, Ohio.

"A word to the wise is sufficient"
and a word from the wise should be
sufficient, but you ask, who are the
wise? Those who know. The oft
repeated experience of trustworthy
persons may be taken for knowledge.

Mr. W. M. Terry says Chamberlain's
Cough Remedy gives better satisfac-
tion than any other in the market. He
has been in the drug business at Elk-
ton, Ky., for twelve years; has sold
hundreds of bottles of this remedy and
nearly all other cough medicines man-
ufactured, which shows conclusively
that Chamberlain's is the most satis-
factory to the people, and is the best.

No Gripping or Pains.

Arrowsmith, Ill., Jan. 21, 1897.

Dear Sirs:—I have been bothered
for 15 years with constipation and I
have tried many preparations during
that time. I commenced using Dr.
Caldwell's Syrup Pepsin in the fall of
1895 and unhesitatingly say it is the
best remedy I have ever found for my
trouble. No gripping or pains after
taking.

Yours, etc.,
W. M. HUNT.

to the coffee drinker. Coffee drinking
is a habit that is universally indulged
in and almost as universally injurious.
Have you tried Grain O? It is almost
like coffee but the effects are just the
opposite. Coffee upsets the stomach,
ruins the digestion, effects the heart
and disturbs the whole nervous sys-
tem. Grain-O tones up the stomach,
aids digestion and strengthens the
nerves. There is nothing but nour-
ishment in Grain-O. It can't be other-
wise. A Gripe is surely contagious. Dr. Miller
Restorative Nerve is a sure preventive.
